ENTRAIN TONIGHT

Missouri Regiment Gets Orders to Leave at Once.

Units to Leave State Camp Completely Equipped.

NEW RIFLES FOR GUARDSMEN

Latest Model Springfields Distributed to Missouri Boys.

New Jersey and Massachusetts Troops Break Camp.

Nevada, Mo., June 26.—The First regiment, Missouri National Guard of St. Louis, will entrain tonight for the border, following receipt of an order to get away as soon as possible. "Somewhere on the border" is the destination given. The mustering in of the First will be completed this afternoon. Thousands of visitors spent Sunday with the guard.

The resignation of Colonel Fred A. Lamb, commanding the Third, was received by General Clark today. It is his home with pneumonia, the colonel was unable to pass the physical examination. He asked to be placed on the reserve list.

Missouri Troops Are Ready.
Brig. Gen. Harvey C. Clark, commanding the Missouri National Guard, has advised Maj. Gen. Thomas H. Barry, commanding the central department at Chicago, that the First infantry regiment, the three batteries of artillery, Company A, signal corps, First ambulance company and the field hospital corps are ready to entrain for the border stations. "That became known here today," General Clark, in his notification added that the units were waiting for the railroads to set the necessary rolling stock on the reservation.

The units can leave completely equipped General Clark said today as special trains from the quartermaster's depot at St. Louis last night brought everything that was lacking. The First infantry regiment mustered about 1,300 men. No information has been obtained here as to the probable destination of the guard. Officers believed, however, that the troops would not go to Fort Sam Houston, San Antonio, but to positions on the border. Mustering in of the troops is continuing today and probably will be completed before tomorrow. Several companies of the Third infantry regiment have been sworn into the federal service and the board of regular army officers now is proceeding with the Second infantry regiment.

Vaccine Makes 'Em Sick.
Members of the Missouri National Guard, encamped on the state military reservation here, are being equipped today with the newest model Springfield rifle. Four thousand of the rifles arrived here during the night from the government arsenal at Rock Island, Ill., and are being issued to the men as rapidly as possible.

The field hospitals began getting their first cases last night and early today. Many of the men were made violently ill by the typhoid and smallpox vaccines administered to them. They were admitted to the hospitals. A violent wind and rain and hail storm attacked the camp early this morning. Many tents were blown down but no one was injured.

Oklahoma Mobilized.

Lawton, Okla., June 26.—Mobilization of the 1,500 men of the Oklahoma National Guard was completed at Fort Sill, near here, early today. Special trains carrying the various units arrived here throughout the night and this morning the guardsmen were busy pitching their tents and preparing their camp. Officers declared today that about 800 recruits were necessary to bring the guard up to war strength.

New Jersey Troops Off to Border.
Sagitt, N. J., June 25.—It was announced at headquarters at Camp Fielder here that the first contingent of New Jersey troops would leave for Texas at 2 o'clock this afternoon. The contingent consists of Troops A and C, cavalry, two batteries of field artillery, a field hospital and an ambulance corps.

BROUGHT 25 MILLION

Italian Government Sends Securities to Cover Big War Loan.

New York, June 26.—Three Italian commissioners arrived here on the American liner St. Paul with \$25,000,000 worth of bank notes and securities. It was sent here by the Italian government as collateral for a loan raised by Italian residents of this city. The money was contained in ten plush covered boxes. Extraordinary precautions were taken to protect it while it was transferred from the ship to the branch of the Bank of Naples at Spring street and Broadway. It was taken away in a motor truck with three Italian and ten local detectives guarding it. The commissioners followed in another automobile.

CHASE MUNITION PLOT

Cavalry and Posse in Autos After Smuggled Ammunition.

Marathon, Texas, June 26.—A posse of peace officers in autos, together with a troop of state cavalry, is in pursuit of three tons of ammunition reported to have been started for by Roberts wa factory yesterday in wagonloads of lumber. A large force of Mexicans is working at the factory.

"KIDS" WILL RULE LAUNCH BIG DRIVE

They Form Playgrounds Into Cities—Election Tomorrow.

Hot Campaign Awakens Their Interest in Politics.

"SUFFRAGETTES" IN IT, TOO

All Persons Below 21 Years of Age Can Vote.

They Have Real Mayors, Just Like Grownups.

"All persons less than 21 years old are entitled to vote," is the reverse qualifications for voting in the primaries to be held on nine Topeka playgrounds tomorrow. "Politicianizing" is of more interest than the sports and amusements on Topeka playgrounds this week. Hundreds of candidates are out canvassing. Many of them have little printed cards which they are circulating. Other enterprising office-seekers have homemade placards pinned on the trees with "Vote for Johnny Smith for police judge" and similar legends.

The suffragettes are putting up a stiff campaign in Chesney park with Jeannette Dooley, the daughter of Mr. and Mrs. A. J. Dooley, 791 Clay street, as their candidate for mayor. On Polk playground the directors themselves are candidates for office. Frank Wilson and Mrs. George Overmeyer are respectively candidates for park commissioner and sanitary commissioner. Following is the list of officers to be voted for: Mayor of the playground, police judge, sanitary commissioner, water commissioner, street commissioner, park commissioner.

The two candidates receiving the highest number of votes for the different offices are declared the nominees. The elections will be held some time after the Fourth of July. After election the laws of the different playgrounds will be made, and the playgrounds will be renamed. "Chesney park will then be the city 'Athens,' the City park 'Sparta,' and Ripley park will be named 'Hesperia' in compliment to Ralph Hope, director of that playground. The other playgrounds are still casting about for names.

"Life is easy for the directors after the 'playground cities' are started," Miss Clara Johnson, playground director during Lieutenant MacLean's absence, said today. "The playground police could give pointers to many a metropolitan force on how to keep order."

"Enforced absence from the playground is the severest punishment administered by the police judge," according to Miss Johnson. "Last year, on Chesney, a boy convicted of having broken a playground lock was brought before Arthur Bonebrake, police judge. He was convicted and sentenced to replace the lock." Most of the officials favored banishing him from the playground for three days in addition. "The punishment is too severe," Judge Bonebrake ruled. "If we get too hard on them at first we won't be able to control them."

The primaries commence at 9 o'clock tomorrow morning and will probably close at noon.

INTERNOED ON TANKERS

Fifteen Hundred Americans on Oil Steamers at Santa Cruz.

Santa Cruz, June 25.—Fifteen hundred Americans, refugees from the interior of Mexico, were in the harbor aboard oil tank steamers, awaiting, under the protection of the guns of the United States steamship Nebraska, the arrival of United States army transports to take them to American ports and safety.

Only a few Americans arrived on the evening train from Mexico City. These remained at hotels during the night and on Sunday boarded the Nebraska to await the arrival of ships to take them away.

Men, women and children are crowded aboard the oil tankers, where they are practically interned by direction of the American naval commander. While not a few complain at the discomforts due to the lack of accommodations aboard the tankers, the majority, especially the women, face the situation with fortitude.

OSBORN COMING BACK

Warden of Sing Sing Will Be Reinstated, Says Report.

New York, June 25.—Thomas Mott Osborn will return to Sing Sing prison as warden, it has been reliably reported. He will be reinstated without prejudice, it is said, in the position he left several months ago when he was indicted by the Westchester county grand jury on charges in connection with his conduct of prison affairs. The indictment fell through.

HETTY IS SICK AGAIN

Richest Woman in World But Son Says Not Serious.

New York, June 26.—The condition of Mrs. Hetty Green, the richest woman in the world, was described at her home here today as very favorable. Denial was made that she was suffering from a stroke of paralysis. Col. Edward H. R. Green, her son, said the illness was not serious, but that those attending her realized that any indisposition to a woman of her age, 50 years, might develop seriously.

BOMB IN POSTOFFICE

Nine Sticks of Dynamite Evidently Failed Had Been Lighted.

New York, June 26.—What had the appearance of being a bomb and with it nine sticks of dynamite, was found today behind a door of one of the entrances of the federal building. The paper in which they were wrapped was slightly scorched.

United Offensive of Allies Believed Started.

Austrians Retreat From Conflict With Italians.

BRITISH OPEN UP ON TEUTONS

Begin Bombardment of Germans at La Bassee.

Invaders Now Up Within Mile of Verdun Fortress.

BY ED L. KEEN.
London, June 26.—Every surface indication today pointed to the beginning of the long expected super-offensive of the allies.

Breaking out with a terrific smash against the Austrian front, the Italians drove the Austrians back yesterday on a front of more than fifteen miles. They recaptured seven positions taken by the Austrian crown prince in his recent drive in the Trentino.

At practically the same hour that the Italian rush began, British artillery broke loose with a battering attack against German trenches from La Bassee canal southward, to the Somme. Both the British and German official statements comment on the violence of this attack. Thus far no word has reached London of the beginning of the expected British infantry attack.

Russians Bring Reserves.
Dispatches from Berlin today reported that the Russians, instead of

being disheartened by their temporary check in Volhynia, are bringing immense numbers of reserves into action and have renewed their vigorous attempts to reach Kovel. In the south-east the Slavs have cleared Bukovina of the enemy and are entering the passes of the Carpathians. Reports that Rumania is displaying military activity, come from German sources, coincident with other dispatches that the pro-ally party at Bucharest is urging Rumania's entrance into the war.

Before Fortress of Verdun.
Paris, June 26.—The Germans are now three-quarters of a mile from French lines immediately in front of the fortress of Verdun. But no operation has as yet been undertaken elsewhere to relieve the pressure on the citadel.

The official statement issued by the French war office says: "There is no important event beyond the usual cannonade to record on the rest of the front." This is taken to show that the French command, viewing the situation as a strategic whole, looks on the tactical success of the Germans on the right bank of the Meuse as of but momentary significance. "Exhausted by the murderous fighting of the last three days the enemy has been forced to pause for breath under cover of the rain of ten and twelve inch shells with which they are pounding the French line."

Russ Through Bukovina.
London, June 26.—Russian troops have broken through the Carpathian mountains into Transylvania in an advance from Bukovina, according to a wireless dispatch from Rome today. The message quoted Petrograd telegrams as authority for the statement.
